ACADEMIC DETAILS

Examination	University	Institute	Year	CPI/%
Under Graduate Specialization:	*Computer Science and Engineering*			
Under Graduation	JK lakshmipat University	JKLU, Jaipur	2028	
Secondary Education	DAV Schools	DAV, Ranchi	2020	75.5

FIELDS OF INTEREST

- Programming and Problem Solving • Exploring Core Computer Science Concepts • Entrepreneurship and Startup Ecosystem

TECHNICAL SKILLS

- **Languages** C, Python **Database** (MySQL) **Tools** (VS Code, Git (basic)).

PROJECTS

- **Smart Ride-Sharing System for School Students using DBMS**

  Designed a database-driven system to optimize school transportation by matching student ride requests with available drivers based on location and time. Implemented request handling, matching logic, and alternative route suggestions to improve efficiency and usability. Focused on safety, cost optimization, and scalable system design while gaining hands-on experience in database management and query processing.

- **Dark Pattern Detection in E-Commerce using Machine Learning**

  Built an ML-based system to detect dark patterns in e-commerce platforms using NLP techniques and TF-IDF feature extraction. Trained and evaluated models including Logistic Regression, SVM, and Random Forest to identify manipulative UI/UX patterns like fake urgency and hidden costs, enabling scalable real-time detection.

- **Statistics-Based Data Analysis Project**

  Analyzed global earthquake data (2010–2023) using statistical methods and Python to study seismic patterns and risk factors. Identified trends, correlations, and regional differences to support disaster risk analysis.

POSITIONS OF RESPONSIBILITY

- Core Member and Event Coordinator – College Events
  Supported planning, coordination, and execution of events.

STRENGTHS

- Positive Attitude, Social Interaction, Hardworking.

INTEREST AND HOBBIES

- Playing sports (Cricket, badminton).
- Playing Chess.
- Photography
- Travelling to new places
